Portfolio link to be added

Berlin, Germany

Education

Bachelor of Software Engineering

GISMA University of Applied Sciences
Berlin, Germany

Higher Secondary Education

Bio-Maths, India
Completed in 2024

Skills

- Python basics
- Java basics
- HTML and CSS
- SQL databases
- LaTeX documentation
- Problem solving
- Team coordination

Languages

Malayalam - Mother tongue

English - Good communication

German - Studied up to B2 level and still improving

ARJUN BIJOY

Software Engineering Student

I am a Software Engineering student currently studying at GISMA University of Applied Sciences in Berlin. I am building my skills in programming, web development, databases, and technical documentation through coursework, exercises, and beginner-level projects.

Profile

I am interested in technology, software development, and practical problem solving. I have worked on academic projects using Python and SQL, which helped me understand programming logic, database design, project structure, and how to organize technical work. I am still improving my skills step by step and using this portfolio to show my learning progress.

Projects

Python University System

A beginner-level Python project based on a university system. It includes students, courses, instructors, enrollments, classes, objects, and basic file organization.

github.com/arjunbijoy1917r-cmyk/python-university-system

University Database Project

A SQL database project based on a university management system. It includes tables, sample data, relationships, basic queries, and database design practice.

Experience

Restaurant Work Experience

- Delivered customer service by taking orders accurately and supporting timely service.
- Maintained a clean and organized dining area to improve guest experience.
- Handled cash and card payments carefully during shifts.
- Worked with colleagues in English and German to complete daily tasks efficiently.

Academic and Technical Exercises

- Completed beginner-level exercises in Python, HTML, CSS, SQL, and LaTeX.
- Practiced building simple web pages and database-related project files.
- Improved task management, documentation, and basic project organization skills.

Additional Information

Nationality: Indian

Date of Birth: 02 August 2006
